

CADC Faculty buy-out policy:

Up to \$2,000 per credit hour for one class; multiple sections that are the same will be discounted at the department head's discretion. If buy-out is more than 50%, any salary savings will be split between the department and faculty member. The department head maintains the right of refusal. The faculty member must give the department at least four months lead time. All buy-outs must be approved by the Dean.
